The special door lock Instinct by MACO – unique and versatile

Motorised, fast and quiet

Door lock reinvented: **Instinct by MACO** is the motorised and key-free solution for premium entrance doors that combines high-quality design and reliable function with maximum ease of use and high security. This is made possible by the horse-head locking mechanism, which closes in the direction of door movement. It is motorised and offers great design freedom for fabricators, architects and end users.

Benefits for fabricators

01 Easy processing

Everything from a single source: As an independent solution, **Instinct by MACO** only offers elements that are perfectly matched and easy to install.

02 Flexible configuration

Up to eight locks in two variants: **Instinct by MACO** locks mechanically and automatically in the Guard version and motorised in the Guard+ version.

03 Great design freedom

Endless possibilities: With its modular principle, doors can be customised in height, width and shape and locking points can be freely positioned.

Benefits for consumers

01 High ease of use

Fast, quiet and convenient: **Instinct by MACO** can be operated by fingerprint, keypad or App.

02 Maximum reliability

100% fail-safe: In the event of a power failure, an emergency power bypass ensures that the door can still be locked and unlocked.

03 Integrated day release

Convenience for everyday life: **Instinct by MACO** can be set so the door remains unlocked at the touch of a button or at certain times.

Special properties

What you can expect from us

Innovative locking mechanism

Flexible, fully electronic, secure: **Instinct by MACO** goes its own way with its locking mechanism. The key and locking cylinder are replaced by a horse-head locking hook that closes in the direction of door movement. This ensures extremely high contact pressure – at the same time, doors can be opened and locked more quickly and quietly.

High-quality design

For doors made of timber aluminium or PVC: **Instinct by MACO** offers great flexibility in entrance door design. Depending on your preference, different colour variants make the locking mechanism an elegant eye-catcher or an almost invisible element.

High burglary resistance

Sensors for every situation: **Instinct by MACO** is equipped with reliable tamper detection ex works. It can also be connected quickly and securely to all standard alarm and smart home systems. The result: reliable burglary protection with early detection.

TECHNOLOGY IN MOTION

Coordinated solutions for a perfect fit System components for Instinct by MACO

MACO OpenDoor

Numerical or biometric: MACO offers three access systems to conveniently and securely operate the **Instinct by MACO** door locking system: the **Instinct app**, the **keypad** and the **dLine fingerprint scanner**.
